MENNATALLAH WAEL ELSHIMY

Computer Science Student | Cybersecurity & Cloud Security

Phone: 0112437188 | Email: menna.wa2l.90@gmail.com | LinkedIn: https://www.linkedin.com/in/menna%D9%80elshimy/ | GitHub: https://github.com/mennatallahwael

PROFILE

Computer Science student at Modern Academy with a growing focus on Cybersecurity and Cloud Security. Currently training in Cloud Security through DEPI, with hands-on exposure to networking, Linux, security concepts, and software development. Also experienced in AI/LLMs, RAG systems, backend, web development, and mobile applications.

EDUCATION

Modern Academy, Maadi | *B.Sc. Computer Science* | *Expected 2028*

EXPERIENCE

DEPI — Cloud Security Intern | *2026 – Present*

- Training in Cloud Security with practical exposure to cloud security concepts, networking, Linux, and security practices.

TECHNICAL TRAINING & CERTIFICATIONS

CCNA — Cisco Networking Academy / IT Gate Academy |*(28 July 2026)*

- Networking fundamentals including VLANs, DHCP, OSPF, ACLs, and NAT.

ITIDA GIGs Initiative | *(28 June 2026)*

- Freelancing-focused program.

GDG Cybersecurity Training | *(2 July 2026)*

وجهني — AI / LLM / RAG Training | *(16 February 2026)*

- Two-week training covering AI, LLMs, and RAG; built Study Buddy using vibe coding.

IEEE Backend Training | *(7 October 2025)*

- Backend training applied in building an Event Registration System

CS50 — Harvard University | *(8 August 2025)*

German A2 — DKW Akademie | *(26 June 2025)*

ALX AI Career Essentials | *(5 December 2024)*

PROJECTS

Da8tak Kam — RAG-Based Data Chatbot | *Python, LangChain, RAG, LLMs, Embeddings, ChromaDB*

- Built a chatbot that answers questions based on uploaded data.
- Implemented document processing and text chunking to improve retrieval and reduce hallucinations.
- Used embeddings and a vector database for semantic retrieval before LLM response generation.

Study Buddy — AI Chatbot | *LLMs, RAG, Embeddings*

- Built an AI chatbot during AI/LLM/RAG training using vibe coding.

Event Registration System | *PHP, HTML, CSS, JavaScript, XAMPP, Database*

- Developed a web-based event registration system with backend and database integration.

Raf Book App | *Flutter, Dart*

- Developed a mobile book recommendation application.

Job Finder Website | *HTML, CSS, JavaScript*

- Built a web application for finding job opportunities.

Team Management System | C++

- Developed a team and player management system using Linked Lists.
- Implemented CRUD operations, searching, deletion, and data updating for teams and players.
- Added sorting and analysis features based on player salaries and average team age.

VOLUNTEERING & ACTIVITIES

EYE — Organizing Committee | *28 November [Year]*

- Supported attendee organization, crowd management, and smooth event flow.

TECHNICAL SKILLS

Cybersecurity & Cloud: Cloud Security, Networking, Linux, Cybersecurity fundamentals

Networking: CCNA, VLAN, DHCP, OSPF, ACL, NAT

Programming: Python, C++, PHP, JavaScript, Dart

AI: LLMs, RAG, Embeddings, Vector Databases, LangChain, ChromaDB, Hugging Face Embeddings

Web & Backend: HTML, CSS, JavaScript, PHP, Laravel, Node.js, XAMPP

Mobile: Flutter, Dart, Android Studio

Databases & Tools: SQL, Firebase, Microsoft Word, PowerPoint, Excel

LANGUAGES

Arabic — Native | English — B1 | German — A2
